

Sample – Issues and required funds by Work Area

Sample – Issues and required funds by Work Area			
	Catchment 1 South from the lighthouse to beach access track to Smoky Beach		
Work Unit	Description	Major management issues	priority
Area 1 R	Themeda grassland and low shrubs on steep cliffs and ridges south and east of lighthouse	Bitou growing on steep cliffs requires specialist contractors	H
Area 1 S	Rainforest south of lighthouse, weedy but canopy still intact after fire. Significant Lantana infestation on mid slopes along the edge of rainforest canopy. Also some weedy garden escapes around the lighthouse precinct including Madiera Vine, Moth Vine, Senna, Bitou and Lantana	Some significant Lantana infestations around the burnt margins require primary and follow-up treatments by contractors.	H
		Garden escapes around lighthouse precinct require long term follow-up. Mix of contractors and Vols	H
		Monitor Quadrat 7	M
Area 1 T	Original rainforest canopy badly impacted by 2001 fires. Area has received primary weed control 2010-1. Bitou seedlings are widespread and will require significant amount of follow-up in years 2012-2014.	Bitou on steep slopes, infestations of Beach Morning Glory and Crofton Weed should be controlled ASAP by contractor	H
		Volunteers to do search and destroy on areas which are relatively flat	H
		Monitor Quadrat 13	M
Area 1 U	Spinifex foredune and Banksia woodland. Was heavily infested by Bitou. Heavy bitou infestation received primary control in 2010-11.	Extensive seedling regrowth will require follow-up. Volunteers to do. Costs for tools and herbicide only.	H
		Monitor Quadrat 12	M
